

AMT® 763

Experience™ Series

ADAPTIVE MOTION TRAINER®

Product Highlights

The AMT® 763 combines essential reliability and ease-of-use with innovative design. With an adaptive stride length, this product provides exercisers of all fitness levels with a wider range of motion for an effective workout. The AMT 763 intuitively responds to exercisers' natural motion, allowing them to change their stride length for a comprehensive cardio workout - all without so much as the push of a button.

Product Features

1. Heart Rate Monitoring

Touch and telemetry heart rate monitoring instantly analyze an exerciser's heart rate when they enter their age and weight. Heart rate monitoring helps exercisers stay in their fat burn, cardio, or peak target zone for a more efficient workout.

2. P62 Console

The P62 touch screen console provides the personalized viewing experience, remarkable TV clarity, and internet options that exercisers crave, all in a 10 in / 25.4 cm screen. With the ability to "favorite" selections for the future, exercisers can customize their workout experience based on what is important to them.

3. Handlebars

The tapered moving handlebars provide a comfortable fit for nearly every exerciser. The stationary grip has a heart rate sensor built-in that provides monitoring and a stable, comfortable position when focusing on the lower body.

4. Dynamic Adjustable Stride Length

Exercisers can go from short stride to long stride, walking to running, and climbing to striding, allowing them to target different muscle groups. Pushing and pulling the moving handlebars will engage the upper body, resulting in a total body workout.

Storm Grey

Refined colorways with dark Tungsten covers and two frame color options, Storm Grey and Black Pearl.

Black Pearl

Specifications

Dimensions (L x W x H): 80 x 35 x 73 in / 203 x 89 x 186 cm

Equipment Weight: 422 lb / 191 kg

Power: 120 volt, 15 amp circuit
