

P30i Interval Console

The P30i Interval Console is a get-on-and-go console experience that gives operators the ability to offer group interval training on the 700 Line Treadmill. At any time during the workout, the exerciser can change the interval intensity using one-touch speed and incline keys. Whether instructor-led or on their own, the exerciser can dynamically adapt their interval workout, making it fun and engaging.

P30i Interval Console

Product Features

1. One-Touch Speed and Incline Keys

Exercisers can transition quickly between work and rest intervals with a simple press of the one-touch speed and incline keys. Pressing the “5” speed key, sets the treadmill to 5 mph. Similarly, pressing the “9” incline key sets the treadmill to 9% incline.

2. Programmable Interval Settings

For added convenience, there are three interval settings that exercisers can program on-the-fly. In seconds, exercisers can save low, medium, and high interval intensity levels. Once saved, the exerciser simply presses one of the three interval setting keys to transition to the saved speed and incline level.

3. Available on the 700 Line Treadmill

The P30i console is available exclusively on the 700 Line Treadmill. Built for heavy-use on our commercial platform, the TRM 731 delivers exceptional reliability, performance, and efficiency at a budget-friendly price.

P30i Interval Console Speed in MPH

SPECIFICATIONS

Dimensions (L x W x D):	20 x 15 x 3 in
