Discovery™ Series Benches and Racks

Half Rack

Storage

The ten weight storage horns neatly accommodate bumper plates. The Olympic Bar and functional apparatus storage is conveniently positioned to enhance accessibility.

Dual Chin-Up/Pull-Up Handles

Dual Chin-Up and Pull-Up Handles with step-up and weight assist band hooks allow for numerous chin-up and pull-up opportunities for a wide range of exercisers.

Secure & Sturdy

The heavy-duty, fully welded dual-pin system on the bar catches and safety rails provide maximum durability, stability, and ease of adjustment. Both feature quick changeover, high-impact, polyurethane covers and inserts to protect all wear surfaces from metal-on-metal contact, preserving the paint finish of the Half Rack.

Straight Bar

A smooth, straight Pull-Up/Chin-Up bar allows for kipping style pull-ups, chin-ups, and muscle-ups, as well as a convenient anchor point for suspension fitness training apparatuses.

Optional Band Pegs

Pegs allow for the use of loop style bands to add progressive resistance to barbell training movements.

Rubberized Step-Ups

Convenient steps allow for easier access to the Chin-Up/Pull-Up stations and are dipped to enhance durability and provide a slip-resistant surface. The step is angled to create a convenient Olympic Bar storage point and catch for performing deadlift exercises. The round gusset beneath the step-up allows for the anchoring of battle ropes.
